

## SPECIAL PEOPLE

*21 Icons South Africa* is a collection of photographs and short films of South Africans who have made a specific impact in their fields of endeavour. The short film series documents the conversations between Adrian Steim, the photographer and film-maker, and the icons.

This week features Struggle veteran Albie Sachs. Through sharing the remarkable stories of people who have devoted their lives to struggle for the greater good, it is hoped that new generations can be inspired to follow in the proud footsteps of these men and women. The project was inspired by people like Nelson Mandela, Desmond Tutu and FW de Klerk.
